Sai Komal

PRODUCT DESIGNER | UX DESIGNER

+91 9505455999 | chundurisk1999@gmail.com | chsaikomal.site | linkedin.com/in/chsk1999

PROFILE

Product Designer with 3+ years of experience across enterprise software, AI products, logistics platforms, and data-intensive applications. Focused on simplifying complex workflows through research, interaction design, systems thinking, and scalable UI.

EXPERTISE

Product Design: UX Strategy, Interaction Design, Information Architecture, User Flows, Wireframing, Prototyping, High-Fidelity UI

Research: User Interviews, Usability Testing, Journey Mapping, Problem Framing, Feature Validation

Design Systems: Atomic Design, Design Tokens, Figma Variables, Components, Variants, Documentation

AI UX: AI Product Design, Conversational UX, Human-AI Interaction, Recommendation Systems, Explainable AI

Accessibility: WCAG AA, Keyboard Navigation, Focus States, Accessible Contrast

TOOLS

Figma | FigJam | Miro
Notion | Jira | Claude
ChatGPT | Figma AI
React | Next.js
HTML | CSS | JavaScript

EDUCATION

B.Tech in Mechanical Engineering
Vellore Institute of Technology
2017 -- 2021

PROFESSIONAL EXPERIENCE

UX Designer
May 2026 -- Present
Onliest
Visakhapatnam, India

- Designed REX, an AI recommendation product, from requirements to user flows, interaction models, wireframes, and prototypes.
- Designed AI states covering low-confidence, no-result, cold-start, loading, empty, and error scenarios.
- Built reusable Figma patterns across Marketplace, HR Admin, and Revenue products using Variables, Components, and Variants.

Product Owner & UX Designer
Oct 2024 -- May 2026
ONDL
Visakhapatnam, India

- Designed Kudra, a fleet and trip management platform covering trip creation, driver assignment, vehicle allocation, fuel tracking, and fleet monitoring.
- Conducted field research and user interviews with drivers, dispatchers, and fleet supervisors to simplify operational workflows.
- Reduced trip-creation effort by 20% and manual operational effort by 30% through workflow consolidation and improved information architecture.

UX Designer
May 2023 -- Oct 2024
Sweya Infotech
Visakhapatnam, India

- Designed enterprise products across research, information architecture, user flows, wireframes, prototypes, and high-fidelity UI.
- Conducted user research, interviews, usability testing, and stakeholder workshops to identify workflow issues.
- Created reusable components and design-system patterns for scalable product interfaces.

SQL Developer
Nov 2021 -- Apr 2023
Oracle
Hyderabad, India

- Built enterprise data-integration and reporting solutions, working with APIs, business workflows, and data dependencies.
- Developed internal reporting tools that improved access to business data.

SELECTED PRODUCT EXPERIENCE

REX --- AI Recommendation & Product Intelligence
2026

- Designed personalized recommendation flows, conversational AI interactions, multilingual inputs, and inspiration-image based discovery.
- Applied explainable-AI patterns including ranking rationale, confidence signalling, and graceful degradation.

Onliest HR Admin --- Internal HRMS
2026

- Simplified attendance, leave, onboarding, and approval workflows across Admin, Manager, and Employee roles.
- Designed exception handling, bulk actions, audit trails, and accessible table/form experiences.

Kudra --- Fleet & Trip Management
2025 -- 2026

- Designed end-to-end fleet workflows spanning trip lifecycle, driver assignment, vehicle allocation, and route monitoring.
- Translated complex logistics workflows into scalable interaction patterns for faster operational decisions.

ClappIt --- Cloud Infrastructure Platform
2023 -- 2024

- Simplified complex cloud-infrastructure workflows for technical and non-technical users.
- Created reusable UI components and scalable design patterns across product modules.

Hindustan Shipyard Limited --- Website Redesign
2024

- Restructured information architecture, navigation, content hierarchy, and responsive experiences.
- Used user research to improve information discovery and enterprise usability.
